**RANGE WALK**

**1E**

For something different take a stroll along the Range Walk.

Leave from the Ambulance and enjoy a pleasant stroll up 8th Avenue then down Dawson Avenue with the river to your left.

At the end of this road cross the Highway with caution and follow Malakoff road as it goes, Check out the cotton growing on either side of you if it is in season.

The Creek you're crossing is called Lonesome (one on it's own). Check it out in case it's flooding. If all's good walk up the Range as far as you want to go, make it a long stroll or a short one, your option.

Be sure to enjoy the gentle hills, views to the east and west, spot the occasional kangaroo, listen out for the birds, and while there catch a breeze in the trees.

Take a thermos and enjoy lunch or smoko at a spot with a view.

Alternatively drive up at night and catch a full moon. See the countryside all around sparkle under the moonlight!

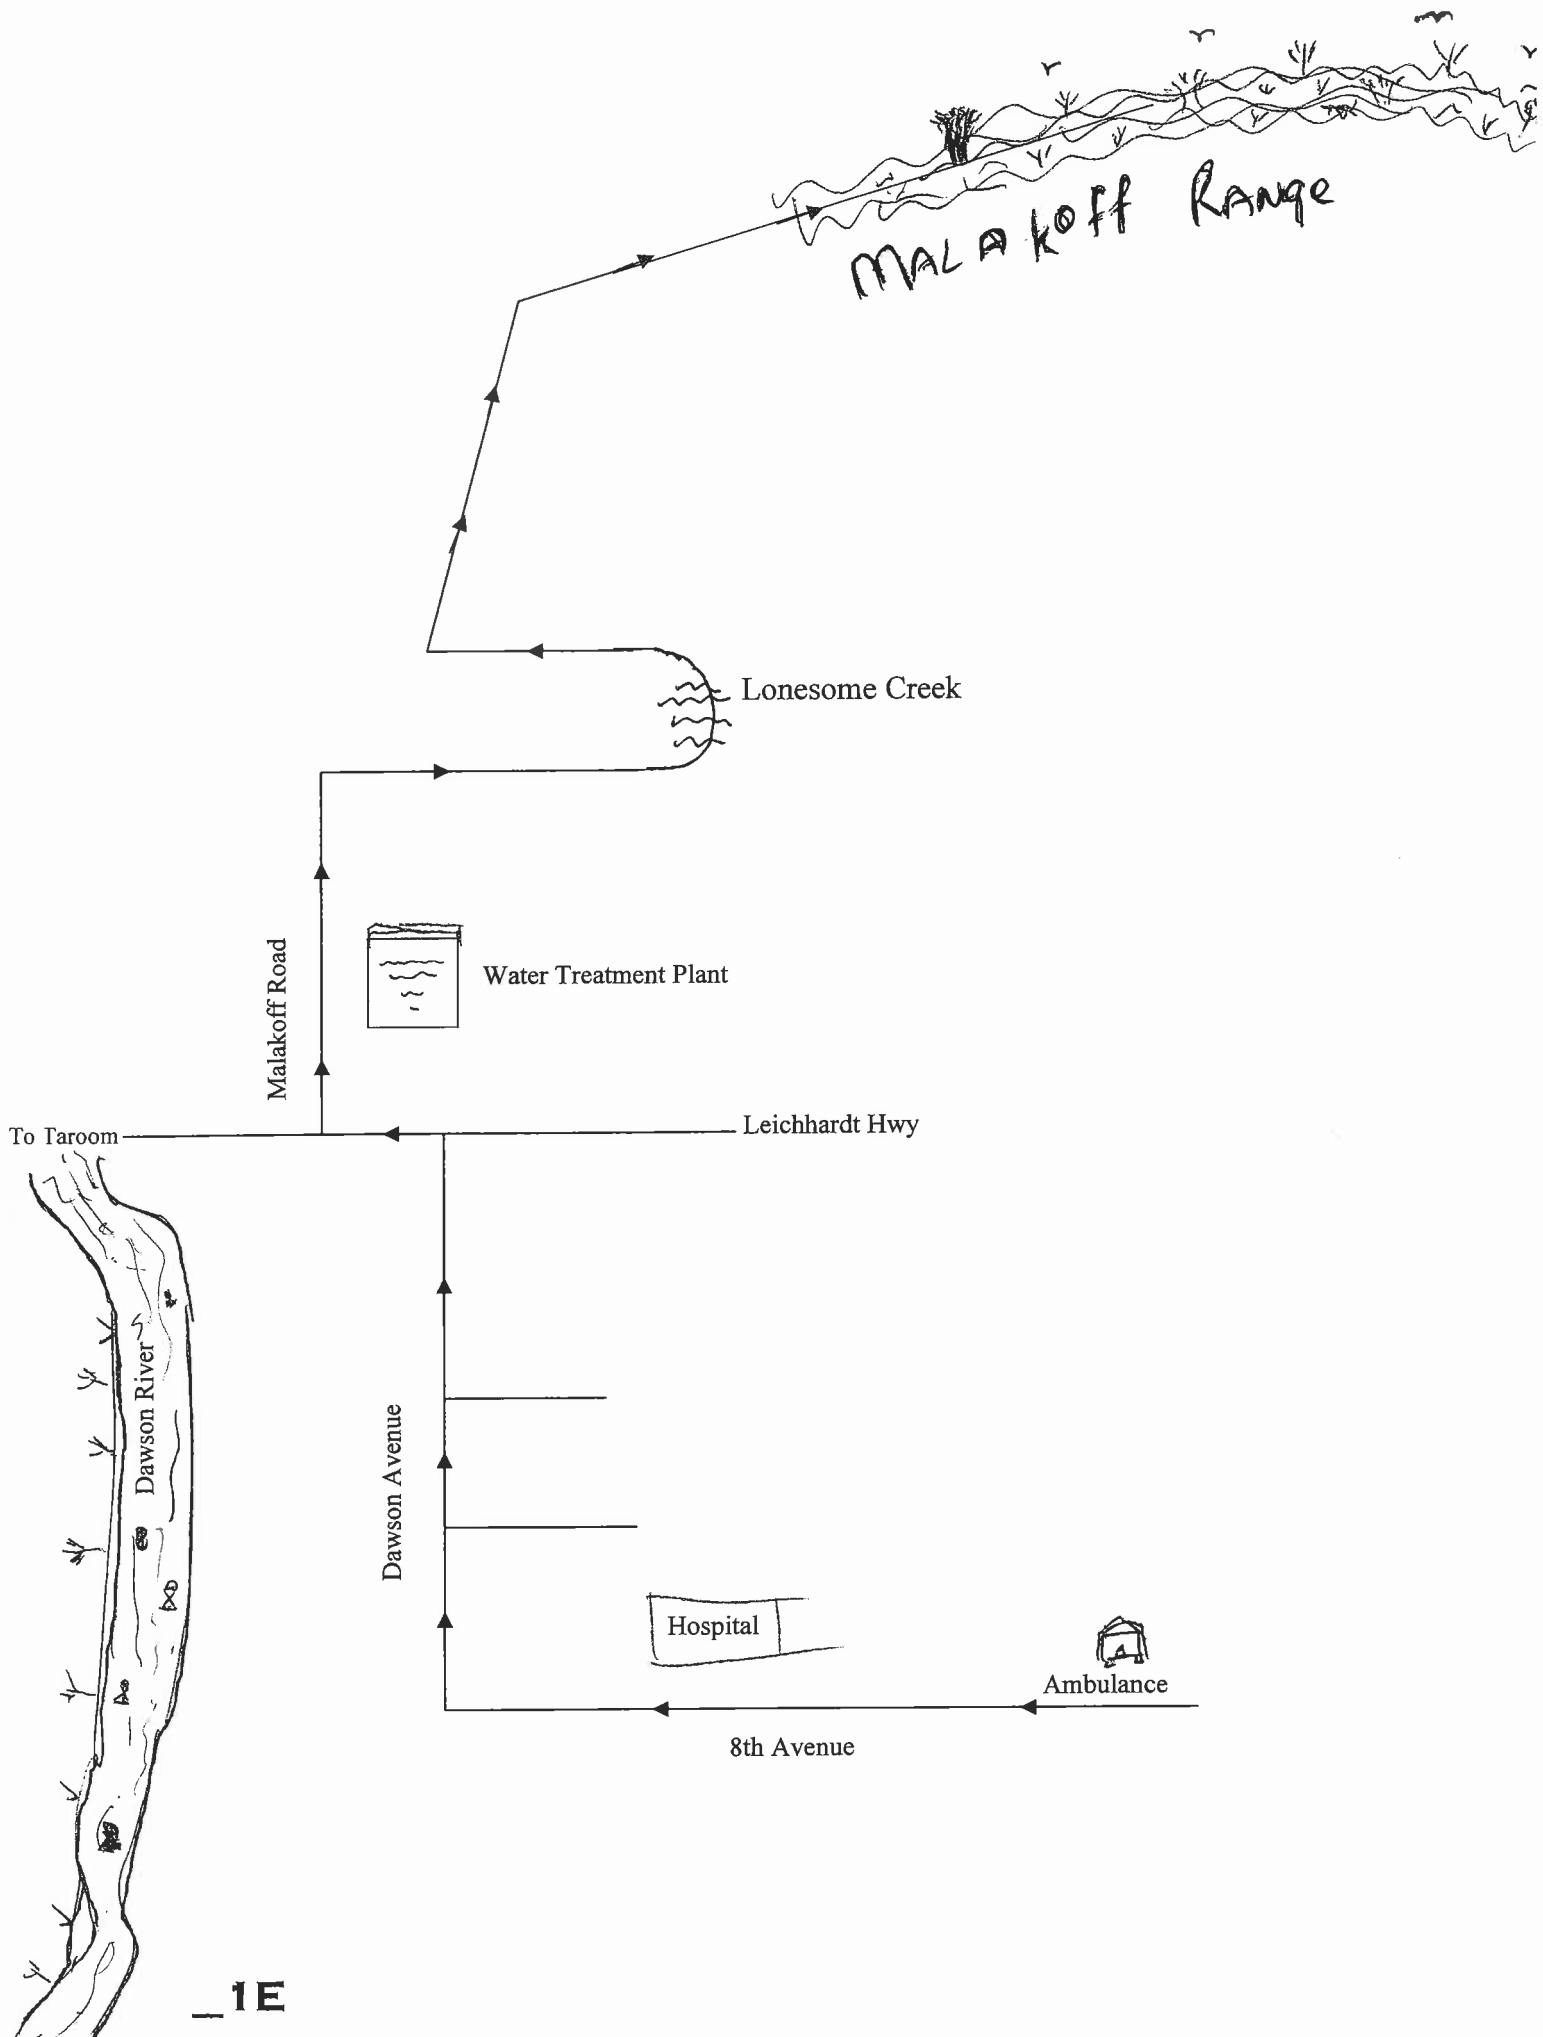

It is a designated country road with little or no traffic.
